

SEETHINK

WITH AN EXPERIENCE ENHANCER

Make your own Experience Enhancer with a comfortable piece of fabric or a piece of clothing that reduces the ambient influences of sound and light happening around you.

Go to a museum environment, somewhere outside, or any place you find inspiring. Wear the Experience Enhancer around your head like a small tent. This will reduce distractions, improve your concentration and allow you to focus on what is directly in front of you. Then look at something for at least one minute and observe your experience.

Document your experience with a photo and write a brief description. Send both the photo and text to experience@seethinklab.com.
